

Steritrans™

Gamma-Irradiated sterile polypropylene tube, cotton bud with polypropylene stick.

Application

Steritrans™ is used for collection and transport of specimens from the target area to Laboratory.

Technical Data Sheet**a) Transport Tube**

Parameters	UOM	Standard
Height	cm	14.8 ± 0.2
Outer diameter of mouth	cm	1.2 ± 0.1
Inner diameter of mouth	cm	1.1 ± 0.1
Outer body diameter of tube	cm	1.3 ± 0.1
Weight of the tube	g	3.0 ± 0.1
Colour		Transparent

MOC – Polypropylene tube

b) Red Colour Cap

Parameters	UOM	Standard
Height	cm	3.0 ± 0.1
Outer Body diameter	cm	1.3 ± 0.1
Weight of the cap	g	1.6 ± 0.1
Colour		Red

MOC – Polypropylene

c) Cotton Swab

Parameters	UOM	Standard
Length	cm	15.2 ± 0.1
Outer diameter of polypropylene stick	cm	0.24 ± 0.02
Weight of the swab	g	0.40 ± 0.1
Colour		White

MOC

Stick – Polypropylene
Swab - Cotton

Note – Gamma-Irradiation Certificate provided on request.
